*Do you seek joy, love and fulfilment in every part of your existence?
Do you long to translate the mundane aspects of life into a joyful and ecstatic experience?*

Sexual energy is the most powerful, creative and transformative energy we all own. Discover how to use your sexual energy to experience personal, spiritual and sexual transformation and blissfully manifest your dreams into reality.

This retreat is a teaching of the ancient art of Tantra and Sacred Sexuality – The Art of Love. It is an experiential week on how the principles of Tantra can help you attain a new level of abundant and joyous energy in your everyday life. Say YES to all dimensions of life!

Tantra is a life approach, which originated in ancient India. It integrates sexuality, emotions, the senses, love and consciousness. The exploration and refinement of the full spectrum of human experience using Tantra methods offers a very rich and varied path of personal development.

‘Sexual Energy and Spiritual Energy are identical Energy. When you are tuned in, tapped in, turned on - that's the "turned on". When Source Energy flows through you, it flows through you. You cannot separate one from the other.’ Abraham (Esther & Jerry Hicks)
